ACSECT 2015

The International Conference on Advances in Computer Science, Electronics and Communication Technologies (ACSECT 2015), which will be held on January 17th, 2015 at Bangkok, Thailand. The conference will provide an effective platform for researchers, academics, industries to join together and share their findings, ideas, scientific knowledge and new techniques/Applications about latest developments in fields of Computer Science, electronics and Communication Technologies around the world.

All submitted papers will be peer reviewed and accepted will be published in the Journal of relevant domain Viz. International Journal of Computer Science and Technology (IJCST) and International Journal of Electronics and Communication technology (IJECT), which will be indexed by DOAJ, Index Copernicus International, Electronic Journals Library, Ulrich's Periodicals Directory, ProQuest, Computer Science Directory, Scirus, iSeek and Google Scholar.

The ACSECT 2015 is an international forum for the presentation of technological advances and research results in the fields of Computer Science, Electronics and Communication Technologies. The conference will bring together leading researchers, engineers and scientists in the domain of interest from around the world. We warmly welcome the authors to submit their Original research papers (which is NOT submitted/published/under consideration anywhere in other conferences/journal) to ACSECT 2015, and share their valuable experiences with the scientist and scholars around the world. The authors are invited to submit their full paper/s in electronic format (.pdf as well as .doc/.docx) through email acsect2015@cosmicjournals.com. The official language of the conference will be English.

About Cosmic Group

'Cosmic Journals' is the leading gateway to a family of journals that offer an international platform to exhibit the skills of researchers, scientists, engineers, doctors, managers, professionals, academicians and professors. Through these peer-reviewed open access online journals worldwide research community gets the chance to communicate and synchronize their research activities leading to growth and application of research and technology.

'Cosmic Journals' are the medium to discover the basic blocks of the latest research. The journals publish original theoretical research work and application-based studies, either as full length articles or short communications, technical articles, review articles, special reports and letters to the editor, which contribute to a better understanding of engineering, science and technological challenges and their respective solutions. By gaining the knowledge of present findings, the students and researchers can make significant contributions to their areas of research.
