AETM 2014

Welcome to the Official website of The International Conference on Advancements in Engineering, Technology and Management (AETM 2014), which will be held on 26 July 2014 at Bangkok, Thailand. The conference will provide an effective platform for researchers, academics, industries to join together and share their findings, ideas, scientific knowledge and new techniques/Applications about latest developments in fields of Engineering, Technology and Management.

All submitted papers will be peer reviewed and accepted papers will be published in the Journal of relevant domain Viz. International Journal of Computer Science and Technology (IJCST) and International Journal of Electronics and Communication technology (IJECT), International Journal of Management and Business Studies (IJMBS), International Journal of Research in Mechanical Engineering and Technology (IJRMET) and International Journal of Education and Applied Research (IJEAR), which will be indexed by DOAJ, Index Copernicus International, Electronic Journals Library, Ulrich's Periodicals Directory, ProQuest, Computer Science Directory, Scirus, iSeek and Google Scholar.

The AETM 2014 is an international forum for the presentation of technological advances and research results in the fields of Engineering, Technology and Management. The conference will bring together leading researchers, engineers and scientists in the domain of interest from around the world. We warmly welcome the authors to submit their Original research papers (which is NOT submitted/published/under consideration anywhere in other conferences/journal) to AETM 2014, and share their valuable experiences with the scientist and scholars around the world. The authors are invited to submit their full paper/s in electronic format (.pdf as well as .doc/.docx) through email aetm2014@cosmicjournals.com. The official language of the conference will be English.

About Cosmic Group

'Cosmic Journals' is the leading gateway to a family of journals that offer an international platform to exhibit the skills of researchers, scientists, engineers, doctors, managers, professionals, academicians and professors. Through these peer-reviewed open access online journals worldwide research community gets the chance to communicate and synchronize their research activities leading to growth and application of research and technology.

Cosmic journals are the medium to discover the basic blocks of the latest research. The journals publish original theoretical research work and application-based studies, either as full length articles or short communications, technical articles, review articles, special reports and letters to the editor, which contribute to a better understanding of engineering, science and technological challenges and their respective solutions. By gaining the knowledge of present findings, the students and researchers can make significant contributions to their areas of research.
