Author:

She has authored 6 books for Nationally and Internationally reputed Publishers like S. Chand LTD and CBS Publications Pvt Ltd.

Outstanding Contribution in Research:

Dr.SujataWarrier's Doctoral Thesis on "Social Implications and Functions of Information and Communication Technologies in Public Health – A Case Study Based on Karnataka Telemedicine Project" is a pioneering and remarkable work in the subject of Sociology. She completed her Doctorate under the able guidance of Dr. B.V. Bhosale, Head of the department, Sociology, University of Mumbai, who is also an eminent sociologist from Mumbai. It is the first of its kind in the world level. Ministry of Information and Broad Casting had made a personal request to her to contribute an article in their monthly magazine "Yojana" and was published in Marathi language. Her Doctoral Thesis has been kept in NAASDOC, ICSSR Delhi for Archives. This was the only Thesis selected in the year 2015 by NAASDOC for their Archives. Her work is significant in the contemporary context of the debate on Public Health from the usage of ICT. Her topic is relevant and contributory in the discipline of Sociology, which also suggests certain policies. There are hardly any sociological studies in this area of research. Her work is empirical, innovative and needs timely attention by the Government, Scholars, Medical Practitioners and ICT professionals from all over the world. She has made a significant contribution in the field of research in ICT and Sociology. She is a pioneer scholar in showing the intertwining of sociology, Information and Communication Technologies (ICT) and Public health.
